Ms. Tamica's Talks

Happy September Skyline Preschool Parents,

Fall is on its way and things are falling into place here at Skyline Preschool! Our teachers have gotten to know their students really well and I feel students are comfortable with their teachers and the school's routines. Here's an inside look into our classrooms:

- ♦ Teachers have completed all one on one Pre-Assessments with each student to determine his/her strengths and any areas which could use more help on. This information is being used to determine small groupings and to make sure our curriculum is aligned with the needs of the students.
- ♦ Our day is full of engaging hands on activities ranging from whole group to small group according to level. To appeal to the all the multiple learning styles of each student, these activities make include sensory play, writing, movement, short videos, dramatic play, and computer time to name a few. A well rounded curriculum has a balance of learning through play centers and academics.
- ♦ Reading your emailed Daily Report in Tadpoles gives you great insight to your child's day! Not only will you find what activities was covered in the classroom but you will learn the specific goals of each activity and you can review these goals with your child at home.

Your teachers and I are so happy to see the school year at such a great start. Continuing to put your child's needs first through routine assessments, small group teaching, and an engaged curriculum are Skyline's priorities. Parent partnership is key by connecting what we cover at school with any time spent at home. Please feel free to contact me with any questions or concerns at tgrady@skylineschools.com or 480.779.2001.

Ms. Tamica J. Grady, Director

4s and 5s practice counting the fruit in the story that Ms. Caitlin is reading.

3s and 4s watch Mrs. Tasha as she introduce the letter A and a few things that began with the letter A such as Apple and our friend 'Allie the Alligator'!

Monday, September 7th
